OLDENLOEN - NORDFJORD

Gateway to the Glaciers

Olden and Loen are two small villages located at the inner end of the Nordfjord. The head of the Fjord is characterized by varied and dramatic scenery. Peaceful valleys and tidy farms lie in contrast to gleaming glaciers, foaming waterfalls and towering mountains. OldenLoen is the gateway to the Jostedal Glacier, the largest glacier on the European mainland. A tour to Briksdal, its most well-known glacier arm, is highly recommended. The destinations have long been known for tourism and industry, but are now also famous for contemporary design. OldenLoen is the main cruise destination in the Nordfjord, but cruise vessels are most welcome in all the Nordfjord ports: Måløy, Selje and Sandane; each hosting a range of interesting attractions and excursion possibilities.
